FROM TEXTILE PROCESSING TO PRINTING TECHNOLOGY

Technology delivers value when machinery, process knowledge and skilled people work together. Abed Textile's manufacturing platform combines established processing equipment with advanced digital printing systems designed for speed, flexibility and consistent performance.

SINGLE-PASS DIGITAL PRINTING

Industrial digital printing designed for high production speed.

ADVANCED PRINTHEAD SYSTEMS

Technology supporting accurate ink delivery and detailed reproduction.

COLOUR MANAGEMENT

Control of colour profiles, ink behaviour and printing parameters.

NEW INVESTMENT DIRECTION

Experience as a large-scale digital-printing user has encouraged the wider business to move beyond textile processing into technologies that support digital production itself.

TEXTILE PROCESSING → DIGITAL PRINTING EXPERIENCE → INK TECHNOLOGY → PRINTING MACHINERY → LOCAL TECHNOLOGY CAPABILITY
