EXTENDING THE TEXTILE TECHNOLOGY ECOSYSTEM

ROSSA DIGITAL PRINTING TECHNOLOGY LTD.

Focuses on digital textile printing inks, technical support, colour performance and printing applications. The business extends practical printing experience into one of digital printing's key consumables.

RBR INNOVATIONS LTD.

Focuses on industrial digital textile printing machinery and related technology, including reactive, pigment, disperse, sublimation and acid printing applications.

OTHER AFFILIATED CONCERN

[Add only confirmed sister concerns. Keep each introduction to 40–50 words maximum.]

From fabric processing to inks and machinery, the wider business is developing a stronger connection with textile-printing technology.
