FROM LOCAL MANUFACTURING TO DIGITAL TEXTILE TECHNOLOGY

EARLY 1990S · THE BEGINNING

Haji Abed Ali Miah establishes the foundation of Abed Textile in Narsingdi.

BUILDING THE BASE

Capabilities expand across textile processing, dyeing, printing and finishing.

DIGITAL TRANSITION

Investment begins in digital systems for greater design flexibility and production efficiency.

SINGLE-PASS PRINTING

High-speed single-pass digital textile printing becomes part of the company's industrial production platform.

EXPANDING DIGITAL CAPABILITY

Digital printing develops into one of Abed Textile's major areas of specialization.

BEYOND PROCESSING

Experience in digital printing leads to investments connected with printing inks and machinery.

LOOKING AHEAD

Technology, technical capability and responsible production guide the next phase of growth.
